

AMENDMENTS TO THE SPECIFICATION:

Please replace paragraph [00029], with the following amended paragraph:

[00029] Non-migrating surfactants that are useful in the present method are disclosed by Guyot, A., in Current Opinions in Colloid and Surface Science, pp. 580 – 585 (1996); Guyot, A. et al., in Advances in Polymer Science, 11, 43 – 65, Springer-Verlag, Berlin (1994); and by Holmberg, K., in Progress in Organic Coatings, 20:325 – 337 (1992). Preferred non-migrating surfactants are described in WO 00/05950, and include diallyl amine pluronics (available from BASF), linoleic alcohol derivatives (available from ICI), allyl alkyl phenol derivatives (available from DKS, Japan), acrylate derivatives (available from PPG), allyl alcohol alkenyl succinic anhydride derivatives (available from KAO, Japan), Polystep RA series (maleic derivatives, available from Stepan Co.), maleic derivatives (available from Rhone Poulenc), and Trem LF-40 allyl sulfosuccinate ~~sulfosuccinate~~ derivatives (available from Henkel).
